I am writing to request the FCC reject the NAB's petition 04-160. As one of many who chooses not to own a television set, we rely on XM satellite radio for all our news, weather, traffic, music and entertainment, all of which is unavailable on most of our local stations. We also believe that as we are subscribers to XM satellite radio, it should not be up to the NAB to dictate what we hear. We have been subscribers to XM for over a year and a-half and find that it offers all programming that no other radio station can or is will to offer. Also for traveling, we have found the new traffic stations to be accurate and very helpful.

Again, please reject NAB's petition 04-160. We will all be glad you did.
Thank you for your time and consideration.
